

July meeting Monday the 12th, 7 pm at Denny's

This will be a working meeting – gluing targets, hopefully will be the last night for working on targets. Hope to see you there!

Other Projects needing done before the July 17th and 18th shoot are

***Flipping Target butts (so the carpet is running vertical)**

***Moving one target to new spot**

***Putting up 14 target signs on new course**

***Putting up 14 arrows on new course**

At meeting we can decide on an evening for working at the outdoor range- if you can work during the day give Marion a call on his cell phone 250-7978.

The club will be selling food at this shoot also, Dave has volunteered to help with this, but I believe will need one more person to help Dave. Please give Mel a call 899-6919, if you can help with this part.

K-Z shoot I think was a success- had a good turnout, had fun shooting, and club made some money. Thanks to every one that helped put this together, Kelly and John did a great job and want to thank both of them.

We want to make sure we thank our sponsors who supported the K-Z shoot:
Tanager Beverages, Rocky Mountain Sports, K-Z ranch, Denny's/Sunlight, Merit Energy, Energy West, Absaroka Water Systems, Field Logic, Cody Heins, Justin Phillips, Jeremy Burr, and Marion DeBusk.

Club Members in the News: Bob Capron, is in line for a national “Heroes of Conservation” award. Bob has instigated a fish rescue project with the Trout Unlimited. Bob and Judy will go to Washington, DC for this event where the winner will be announced. Great Job Bob and best of luck in DC, you are a Hero to us.

Neil Thagard received the Lex Ross Conservation Award from the Wild Sheep Society of British Columbia. This is the highest conservation honor presented by the society. Congratulations Neil.
