October Newsletter

Meeting October 12<sup>th</sup> , back at the Irma in the Governors room, 7 pm.

Once again September has come and gone, the archery season. I do hope that you had a successful and enjoyable season. Hope to see pictures and hear stories.

For the meeting this month we have to schedule a day to work on the outdoor range target butts. There are some that need to be straightened and re-banded. If we do not do this we will loose them. We have already lost the 70 yard one on the sight in range. That is \$400.00 gone. Please come to the meeting so we can get this scheduled and plans made to get this done. This is the top priority project before winter actually comes...

The Wyoming State Assoc. had a meeting on Oct. 4<sup>th</sup> to set shoot dates for the season. We can start looking at dates for us and get them scheduled.

If you have any ideas for the club shoots to help get you and other shooters to come participate we need you at the meetings. You can also email the officers with your ideas.

Ideas for the club. Do an event for the community to get more interest in archery.

K-Z two day shoot- thoughts on looking into making it a IBO shoot like it was when started shooting there and maybe trying to get it later in the month. Your thoughts!!! Your info is needed!

Need to look at the 3-D targets to get them back to good condition.

Bob Capron, a THANK YOU to you for setting up and taking down the 3-D course once again for the season.

Hope to see you at the Meeting on Monday the 12<sup>th</sup> at the Irma 7 pm.
